

This two-day conference, consisting of panel discussions and speed-presenting sessions, will focus on real-life applications of lead practices and insightful case studies. Pharma HR professionals will deal with issues regarding organizational development during the day one, and capability development on the second day.

Attendees will hear about the key topics such as modernizing conservative working environments, new skillsets & mindsets in the HR function, adapting to Pharma 3.0, building change leadership capability, high-impact engagement drivers and many more.
